

Walking Alone

Threat Signal

Where do I go from where?
Drifting through this world so blind
Chasing every dream before they disappear
My thought will still remain
And I'll never change

I feel like We're lost inside
Wasting away, our hate growing everyday
I feel like We're dead inside
Walking alone, our greed has taken control

Wasting away, our hate growing everyday
Walking alone, our greed has taken control

My vision never strays
Hiding from the corporate game
Disconnected from the system based on fear
My thoughts will still remain
And I'll never change

I feel like We're lost inside
Wasting away, our hate growing everyday
I feel like We're dead inside
Walking alone, our greed has taken control

I'm not afraid, don't be afraid
Be the change You want to see in the world

I feel like We're lost inside
Wasting away, our hate growing everyday
I feel like We're dead inside
Walking alone, our greed has taken control
I feel like we're lost inside
Wasting away, our hate growing everyday
