

Slang & Serve

Three 6 Mafia

ATL niggas (repeated throughout the song)

I'm on an everlasting money mission, million dollar premenition
Got my own coalition, pack my own ammunition
20's on the Lexus glisten, I'm driven to mob life
Hella niggas want me murdered, but cant do the job right
Razor blades, Ak's, and ask me do I carry them
Killin for a hobby like a medeival barbarian
When will the disaster stop? Never, nigga pass the glock
Illustrated killin live in color like its magnavox
Now I got em hot, from the plot to put the block on lock
Set up shop wit over 50, 000 dollars worth of rocks
Ammunition cocked, prepared to pop, Ill even shoot at cops
Stash away the heat and then retreat off in my drop top
Find yo own bizness, or the gat'll make yo clock stop
187 from the west and get yo fuckin block mopped
You gone have to tangle wit a Hypnotize, get suprised
Good for makin money off the shit to stay the fuck alive.

Come smoke some herb wit me
Come flip a bird wit me
Step on the curb wit me
Come slang n serve wit me.
(4x)

I only fuck wit real niggas, all the haters can burn in hell
If you aint affiliated, dont come wit packs to sell
Object of this hustlin is bubbling stacks of mail
Situations turn sour, rivals'll blast then bail
When I hit the block I'm seein J's, drivin insane
Crunker than Montana wit some anna for ounces of caine
ATL niggas blowin brains, simple and plain
Sippin golden grain, makin stangs, inflictin the pain
Smokin, gettin into it, livin ruthless, the feds are clueless
We the ones who keep the city crunker than engine fluid
Hypnotize niggas ridin vettes, sippin moets
Strapped up wit a vest and giant tecs to lower the stress
51 niggas got my back, so nevertheless
Ima get this anna off my chest and smoke on this cest
Puttin bitches on the track, when its a pimp in the flesh
Solid as a rock for advesaries who wishin to test

Come smoke some herb wit me
Come flip a bird wit me
Step on the curb wit me
Come slang n serve wit me.

My scandalous recipe make niggas be scared of me
If there has been treachery dont try to get next to me
Yo life is in jeopardy when fuckin wit family
We turn to psychotic crews and all of our insanity
Break bread off of greenery, releasin the steam in me
Keep me from the weapons, Ill be fuckin up the scenery
Deport bullets like immigrants, bitch niggas dont attempt to flinch
Money is the motive, let my sinning end the innocence
Ima let the missile rip, ballistic wit hollow tips
You wont see me comin, keep yo fingers on the pistol grip

Smoke blindin my enemies, give em fearful tendencies
You can kiss they life goodbye when T-Rock hit the henneseey
I'm in it for the presidents, luxurious residence
Hooked up wit the camp, Ive been a mercerary ever since
Atlanta my stompin grounds, Old National's where I'm found
Moving bricks, and fuckin tricks, and smokin reefer by the pounds!!!
