

# Born Like This

Three Days Grace

It's not what I took from you  
It's not what I stole  
We are born like this  
Like this

The time has come to change this  
To stretch the thought a mile  
We've lost that kind of spirit  
We want it back today

The time is right to change this  
To make the life we know  
They took what we were given  
We'll get it back again

Somewhere, someone's gun  
Someone's gun is laughing

Hey, it's not what I gave to you  
It's not what I stole  
We are born like this

No, it's not what I took from you  
It's not what I stole  
We are born like this

You try your best to mock me  
You're always in my way  
You've lost what you've been given  
You'll get it back today

The time is right to change this  
To make the life we know  
They took what we were given  
We want it back again

Somewhere, someone's gun  
Someone's gun is laughing

And it's not what I gave to you  
It's not what I stole  
We are born like this

No, it's not what I took from you  
It's not what I stole  
We are born like this

Somewhere  
You're floating high you're not living, we are  
Somewhere, someone's gun  
Someone's gun is laughing, laughing

It's not what I gave to you  
It's not what I stole  
We are born like this

Hey, there it's not what I gave to you

It's not what I stole  
We are born like this

It's not what I took from you  
It's not what I stole  
We are born like this
