

# Let You Down

Three Days Grace

Trust me  
There's no need to fear  
Everyone's here  
Waiting for you to finally be one of us

Come down  
You may be full of fear  
But you'll be safe here  
When you finally trust me  
Finally believe in me

I will let you down  
I'll let you down, I'll  
When you finally trust me  
Finally believe in me

Trust me  
I'll be there when you need me  
You'll be safe here  
When you finally trust me  
Finally believe in me

I will let you down  
I'll let you down, I'll  
When you finally trust me  
Finally believe in me

I will let you down  
I'll let you down, I'll  
When you finally trust me  
Finally believe in me

Never want to come down  
Never want to come down  
Never want to come down

(Down, let you down)

I will let you down  
I'll let you down, I'll  
When you finally trust me  
Finally believe in me

I will let you down  
I'll let you down, I'll  
When you finally trust me  
Finally believe in me
