

## On My Own

Three Days Grace

I walk alone  
Think of home  
Memories of long ago  
No one knows, I lost my soul long ago

Lied too much  
She said that she's had enough  
Am I too much?  
She said that she's had enough

Standing on my own  
Remembering the one, I left at home  
Forget about the life, I used to know  
Forget about the one, I left at home

I need to run far away  
Can't go back to that place  
Like she told me  
I'm just a big disgrace

Lied too much  
She said that she's had enough  
Am I too much?  
She said that she's had enough

Standing on my own  
Remembering the one, I left at home  
Forget about the life, I used to know  
Forget about the one, I left at home

So now I'm standing here alone  
I'm learning how to live life on my own

Lied too much  
I think that I've had enough  
Am I too much?  
She said that she's had enough

I'm standing on my own  
Remembering the one, I left at home  
Forget about the life, I used to know  
Forget about the one, I left at home

So now I'm standing here alone  
I'm learning how to live life on my own  
Forget about the past, I'll never know  
Forget about the one, I left at home
