

## Angels

### Three Years Hollow

You should always know I'll be right here  
I know it's time to go and I'm not scared  
I've given you my all, would you for me?  
You're taking everything and running away

You show me the way I am  
Let me hold you until you're lifeless  
It's hard to understand  
This is the way that I wanted it all to be  
Let me give you my hand and hold on to me  
Cause this is the way I want it all to end  
I gave you nothing at all but you saved me again

I should always know you'll be right here  
I know you have to go and I'm not scared  
But there's so many things that I wanted to say

You show me the way I am  
Let me hold you until you're lifeless  
It's hard to understand  
This is the way that I wanted it all to be  
Let me give you my hand and hold on to me  
Cause this is the way I want it all to end  
I gave you nothing at all but you saved me again  
You're all that I've known

So I've waited all my life to show you that I'm not alone  
And I know it's hard but listen, you're not alone  
When you've faded out, you've faded out your light  
And I know it's hard but listen, you're not alone

Open your eyes  
To see the wings of the angel that's on your side  
Open your eyes  
To see the wings of the angel that's on your side
