

Still Waiting

Three Years Hollow

We tried so long
And I played with our lives
And I've strung you along
And I made you cry

You take all your time
But you don't seem to know I'm still waiting
And you waste so much time
We've made mistakes
But don't leave me behind

Let's get along this time
It doesn't matter how much time we spend
Cause all those feelings
Are never wasted
And I reach out to know that you're still alive

You take all your time
But you don't seem to know I'm still waiting
And you waste so much time
We've made mistakes
But don't leave me behind

Now that I feel alone
We've wasted all of the time we spent
And all those feelings are gone
Wasted all of the time

You take all your time
But you don't seem to know I'm still waiting
And you waste so much time
We've made mistakes
But don't leave me behind
