

Suffer

Three Years Hollow

I don't know if I can ever change
I don't know if I can be what you want me to be
At times you're all I crave
But now i'm tired of envy
Cause all of the choices that you make
I've been waiting
I'm moving on and fading away
To forget all the things you've done

Cause you haven't suffered enough
There's more we can take to burn you alive inside
Are you happy now?
You destroyed what we made and everything I am inside

Look how long it took us to see
This isn't the right time
I look at everything I wanted to be
But you just look the other way
Cause this is everything I've known
How did I find myself alone
Looking back on the things that I'm holding so tight

Cause you haven't suffered enough
There's more we can take to burn you alive inside
Are you happy now?
You destroyed what we made and everything I am inside

Cause you haven't suffered enough
There's more we can take to burn you alive inside
Are you happy now?
You destroyed what we made and everything I am inside
