

# Suffer

## Three Years Hollow

I don't know if I can ever change  
I don't know if I can be what you want me to be  
At times you're all I crave  
But now i'm tired of envy  
Cause all of the choices that you make  
I've been waiting  
I'm moving on and fading away  
To forget all the things you've done

Cause you haven't suffered enough  
There's more we can take to burn you alive inside  
Are you happy now?  
You destroyed what we made and everything I am inside

Look how long it took us to see  
This isn't the right time  
I look at everything I wanted to be  
But you just look the other way  
Cause this is everything I've known  
How did I find myself alone  
Looking back on the things that I'm holding so tight

Cause you haven't suffered enough  
There's more we can take to burn you alive inside  
Are you happy now?  
You destroyed what we made and everything I am inside

Cause you haven't suffered enough  
There's more we can take to burn you alive inside  
Are you happy now?  
You destroyed what we made and everything I am inside
