

The End of Demise

Three Years Hollow

break me out of the hole where i waste away
cause i've been taking the shit that you always say
i'm gone, i'm moving on, letting go
but you'll never say you're wrong, so wrong

fake, taking my fate, ripping me away
and i don't want to hear all the things you say
pushing me away, pushing me away
this is the end of demise

all the things that you say get inside my head
i try to make you think they've never been
i'm gone, i'm moving on, i'm letting go
and this is the last time
you fuck with me x3
don't fuck with me x3

fake, taking my fate, ripping me away
and i don't want to hear all the things you say
pushing me away, pushing me away
this is the end of the line

let this go
let this go

fake, taking my fate, ripping me away
and i don't want to hear all the things you say
pushing me away, pushing me away
this is the end of the things you say
taking my fate, ripping me away
cause this is the end
