

Babylon Rising

Threshold

gather round you sinners who don't believe in peace
you can all be winners if you let your soul fly free

don't be afraid the threat's not for real
be very afraid you've made your last deal

business men and money spinners rape the earth for gain
they don't like my ideas they label me insane

don't be afraid the threat's not for real
be very afraid you've made your last deal

two thousand years of looking for utopia
two thousand years of babylon rising

don't be afraid the threat's not for real
be very afraid you've made your last deal
