

## Flowers For A Ghost

Thriving Ivory

You disappear with all your good intentions  
And all I am is all I could not mention  
Like who will bring me flowers when it's over  
And who will give me comfort when it's cold

She took a plane to somewhere out in space  
To start a life and maybe change the world  
See I never meant for you to have to crawl  
No I never meant to let you go at all  
Oh, no  
Oh, no  
Don't ever say goodbye

See my head aches from all this thinkin'  
Feels like a ship god, god knows I'm sinkin'  
Wonder what you do and where it is you stay  
These questions like a whirlwind, they carry me away

Who will bring me flowers when it's over  
And who will give me comfort when it's cold  
Who will I belong to when the day just won't give in  
And who will tell me how it ends and how it all begins  
Oh, no  
Oh no  
Don't ever say goodbye

I'm only human  
I said I'm only human  
I'm only human  
I said I'm only human  
I'm only human  
I said I'm only human  
I'm human I'm human I'm human  
Yeah oh,  
Yeah, oh
