

# Something came over me

Throbbing Gristle

Something came over me  
Something came over me  
And I don't know what it was  
No I don't know what it was  
Was it white and sticky?  
Was it white and sticky?  
Well I don't know what it was  
No I don't know what it was

Something came over me  
Something came over me  
And I don't know what it was  
No I don't know what it was  
But I rather like it  
Yes I rather like it  
So I'm doing it again  
Yes I'm doing it again

Something came over me  
Something came over me  
And I don't know what it was  
No I don't know what it was  
Was it white and sticky?  
Was it white and sticky?  
Well I don't know what it was  
No I don't know what it was  
But I rather like it  
Yes I rather like it  
So I'm doing it again  
Yes I'm doing it again

Something came over me  
Something came over me  
Was it white and sticky?  
Was it white and sticky?

Something came over me  
Something came over me  
And I don't know what it was  
No I don't know what it was  
Was it white and sticky?  
Was it white and sticky?  
And I don't know what it was  
No I don't, don't, don't, don't, don't know what it was  
Mummy didn't like it  
And my daddy didn't like it  
But I do it anyway  
Yes I do, do, do, do, do it anyway  
Do it anyway  
Do it anyway  
Do it anyway  
Yes I do, do, do, do, do it anyway  
Something came over me  
And if something comes over you  
Well do it anyway  
Yes do, do, do, do, do it anyway  
Do it anyway

Do it anyway  
Do it anyway  
And that's the message for today  
And if it's white and sticky  
And if it's white and sticky  
Well do it all again  
Keep doing, doing, doing, doing, doing it again  
Doing it again  
Doing it again  
Do it all again  
And that's the message, the message, the message from Gen

Something came over me  
And if something goes over you  
Do it anyway  
Just do, do, do, do, do it anyway  
Do it anyway  
Do it anyway  
Do it anyway  
Just do, do, do, do, do it anyway
