

Cosmic Seas

Throes Of Dawn

I drown into ocean, into the shoreless
Ocean of eternity, stars pull my soul
Into the breath taking views of the abyss,
The abyss has no end, an endless journey
Through the stars, abyssic black darkness
Is inside me ...

No solid touch
Only the stars that watch

I saw my fate as it was written before
Time

...in the cosmic seas
Where the stars are burning me
I drown into streams
Of the cosmic seas

I faced my destiny, it was always there
Waiting for my end ...

...in the cosmic seas
Where the stars are burning me
I drown into the streams
Of the cosmic seas

"Deeper to the cosmos I will fall
The emptiness of infinity ... fills me
I breathe ... not air but the power
Of stars ... my heart beats in the
Rhythm of the universe
I share the harmony of eternity"

My heart beats
In these endless streams
Immortality
In the cosmic seas
