

Where Once The Sun Rose

Throes Of Dawn

Solitude wanders
where once the sun rose
in essence of a silent wind
teasing my tired limbs

Time forgot me
into the lonely eternity
Standing against the wind
beaten by hail and rain
Alone to pass these winters
of cursed life lost
Eternity in winter
for none stood beside me

Countless are the years
of malady and grief
Where times flow
has long ago ceased
Only echoes brief
of whispering wind
Eternity in winter
with solitude wandering
(within me)

Where Once the Sun Rose
- a wolf's destiny
lonely forever be
Standing as statue...
Where Once the Sun Rose
- from the merciful daylight
my eyes are
forever closed
