

## Mercy Me

Throne

this isn't the way it's meant to be  
emotions got tangled together  
the feeling was new, it set me free  
but life with regret is forever  
took it all for granted  
but it's hard to go back again  
oceans of words turned into leaves  
falling and spreading the rumor  
I 've severed the end despite the means  
they're hinting that we have no future

took it all for granted  
and I want to go back again  
now you look so stranded  
can't get you out of my head  
this isn't the way it's meant to be  
you weren't supposed to be without me  
it's what we lacked that set us free  
forgive, show mercy  
took it all for granted  
and I want to go back again  
now you look so stranded  
can't get you out of my head  
mercy me
