

So Jealous

Throne

bring me back to when I liked you, and you, crushed me I'm
all over you, we're through.
bring me back to when I liked you, and you,
trust me I'm all over you, we're through.
seems to me no one understands, but you

well I'm so jealous over you, (you)
well I'm so jealous
my precious took to long to see, look at me,
I want you only there for me, (me)
now I'm so jealous over you
I'm so jealous
