

## Stone Faces Of Ungods

Throneum

stone faces of ungod  
archaic hierarchy  
older human bastard lies in ambush  
in shade of monster old-toad  
cities carved in the rock  
monument of the ancient ones  
those who were before  
in harmony of cosmos and magic  
twelve archaic faces  
effect of corrosion and touch of the unknown and  
this what is real has no meaning  
denial of all natural laws
