

Left Here

Throw The Fight

Heart's beating so fast
Wondering what will happen next
As you go and never care about anything at all

Wouldn't you think that I might just care a little
if you were to leave me here?
When you

Fall away from me
You can't stay away until you
fall away from me
You can't stay away until you fall

Wandering through my thoughts of all these restless nights
Trusting deeply in the way that you take me every day

This is what I hope for every night
As you go and leave me here
When you

Fall away from me
You can't stay away until you
fall away from me
You can't stay away until you fall

If you can't find yourself
You'll never know the way
(Never know the way)
The way back to me

I'll stay in this hell just to know the way
I thought you knew the way

Stay away until you
Fall away from me
You can't stay away until you fall away from me
You can't stay away until you
You can't stay away until you
