

Place The Blame

Throw The Fight

To watch you go
It's not to be
I find the things
That you should say
You should say
You should say

You're finding out
It took too long
To right the things
That you did wrong
No way to know
No way to see
The things you did
From nine to three

Falling out
It takes too long

It's all the same
There's nothing wrong
Who's not blame
Did it take too long
It's all the same
There's nothing wrong
Who's not blame
Did it take too long

Some time ago
You found the way
And left the rest
Of us to pay
You passed the plan
You are so kind
Make no mistakes
In your sheltered mind

To watch you go
It's not to be
I find the things
That you should say

[Chorus]
