

Drive

Throwing Muses

Drive your car
through the kitchen cupboard door
through the winter
down to the floor
drive your head
to the bathroom tile
smile 'round the corner and your friends
they wanna play
do you wanna play games?
it's alright... square your head
your head is square
go out with me
come out
1 2 3...1 2 3 i didn't care...
i wanted you to know i didn't care
i always loved your hair
i wanna fight the clouds
with your head on a stick
fight the bush with your water
and your leaves
and you leave so...
fight with me
run the grass
run the road
the road house
home with me in my head
in your heart
under your ribs in my mind
sleep your box i sleep in your mind
i don't care...
