

## That's All You Wanted

Throwing Muses

That's all you wanted  
That's all you wanted  
We share this skin  
We share this kiss  
The best in us  
The beast in us  
This lust  
I saw the angels  
Sleeping with you  
In his face  
Light  
That's all you wanted  
That's all you give
