

# My Favourite Song

## Thundamentals

Yo it's the feeling when I rise getting touched by the suns rays  
It's getting high puffin haj on a Sunday  
Grub when I'm hungry threads that are comfy  
Affection I get from the people that love me  
A hug from my lovely, bacon and eggs  
The smell in the kitchen when she's baking a spread  
The revelation of a phrase in my head  
Expression of my depths to the day that I'm dead  
It's the way that we step, never faking for ends  
To pause for a second, inhaling a breath  
If life is a game then I'm placing my bets  
When I head to the T and breaking the trends  
Getting blazed with your friends  
Kicks with fat laces  
It's anyone thats into berating the damn racists  
Staircases that are covered in graff  
to all the baseball jackets that cover my back  
Yo it's the feeling that takes over when I'm freaking a stage show  
Appreciation of a piece on the railroad  
The rhythm of the beat out the MPC  
And my lyrics when I speak and they set me free

Down by the beach, takin it in  
These are a few of my favourite things  
My girl and the taste of her lips  
These are a few of my favourite things  
My world how amazing it is, you know we just taking it in  
These are a few of my favourite things

First off the mountains, kids from the clifftops  
My family, my friends and my peeps who love hiphop  
We got Tribe Called Quest, Jest, Mos Def  
Add Talib Kweli thats Black Star no less  
Barside big al, Madlib, J Dilla  
Amy winehouse and the Ghostface Killah  
Radiohead, Pegz, Atmosphere  
That guy Sage is OK, but his rap is just weird  
This is just a bit of music that I hold dear  
While I'm chilling in the sun sipping cold beer  
My cap, check it, it's blacker than jet  
My girl in bed feeling her breath on the back of my neck  
Smacking a set, street art and wisdom  
Playing Alex the kid on my master system  
Mark Johnson, David Lynch, Bill Hicks, Twin Peaks  
Tre flips perfectly placed and crisp clean  
Payday, honesty, world peace ideology  
Noam Chomsky identifying my philosophy  
Rap, sex, weed and GTA  
and the feeling I get when I hear my CD played

It go  
Down by the beach, takin it in  
These are a few of my favourite things  
My girl and the taste of her lips  
These are a few of my favourite things  
My world how amazing it is, you know we just taking it in  
These are a few of my favourite things

These are a few of my favourite things  
These are a few of my favourite things
