

# My Lady

## Thundamentals

It went down like this  
I was like sup miss, see it's nice to meet ya  
Can I buy you a drink or a slice of pizza  
She said fine lime with some nice tequilas  
Then I thought to myself yeah this dime's a keeper  
I said ya vibin' creature but she tamed the beast  
She ever walked out it'd make me weak  
Although I know that you're down cause it's plain to see  
But if this shit turns out the change a beat  
Blatantly me I'm a lady b  
On our love boat steeze seven days a week  
Any secret she keeps yeah it's safe with me  
There's no need to peep girl, blaze a tree  
Let your brain release, relax yourself  
Cause I wanna know what affection you stack the shelf  
Now it overflows, honey don't you know  
If your love was a drug I woulda overdosed

You could be my lady  
More than a one-night-stand  
Just take my hand  
We'll be hanging on the daily  
You could be my lady  
More than a one-night-stand  
Just take my hand  
We'll be hanging on the daily

You act like ya never been kissed  
This one chance'll be my pleasure sweet lips  
I'm sure they're not virgin lips  
I best leave it for the page of sweet journalists  
From you I could learn a bit  
Help on the search of eternal bliss  
Damn girl you're like an image of all perfectness  
Let me take your picture, make it permanent  
Service is not bad, I'm the usual guy  
Daddy wouldn't see me as a suitable type  
Just wanna get inside your beautiful mind  
See these pity stains understand you're more than a pretty face  
For pity's sake I mean the days I don't know  
I wanna say hello but choke when you go by  
Oh my I'm a sucker with no chance  
Or is this your summer of romance

You could be my lady  
More than a one-night-stand  
Just take my hand  
We'll be hanging on the daily
