

Dodge The Bullet

Thunderstone

You try to make yourself a god and you try to live like
one
But you're too weak too small too everything for that
Since day one you've been choked by their expectations
And now, after so many years... it's time to pay the
price

Vengeance - is the only way
Happiness - comes another day
Fucked up mess - mind astray
Control - your middle name

Reaching for something that's too far away
You fail and you fall just to get back onto your feet
Holding on to a dream can bring you misery
You live and you learn it all turns into greed

After all those things you've done
You think you can get away from it
No way! Just dodge the bullet and die trying...

Vengeance - is the only way
Happiness - comes another day
Fucked up mess - mind astray
Control - your middle name

Reaching for something that's too far away
You fail and you fall just to get back onto your feet
Holding on to a dream can bring you misery
You live and you learn it all turns into greed
