

Warning sound of sirens, waking you up  
This 5 piece mayhem-crew will force you to stop  
Striking with power, no hesitation  
We'll turn your head in less than an hour  
Welcome to our nation  
We will ease your pain  
We'll ignite the flames

Underestimated. Head to toe in dirt  
Keep your distance for your own sake. Try to stay alert  
Despite what you think, despite what you say  
You better take a tighter grip because we are here to  
stay  
We will ease your pain  
We'll ignite the flames  
We'll no longer be servile  
Not anymore

Forevermore, together for what we all are heading for  
No compromise, no alibis

Forevermore, together for what we all are heading for  
No compromise, no alibis

When and if that day will come  
when all is gone and we are not around  
Just close your eyes and listen hard...  
And we'll be back again

Forevermore, together for what we all are heading for  
No compromise, no alibis  
Forevermore
