

Forevermore

Thunderstone

Warning sound of sirens, waking you up
This 5 piece mayhem-crew will force you to stop
Striking with power, no hesitation
We'll turn your head in less than an hour
Welcome to our nation
We will ease your pain
We'll ignite the flames

Underestimated. Head to toe in dirt
Keep your distance for your own sake. Try to stay alert
Despite what you think, despite what you say
You better take a tighter grip because we are here to
stay
We will ease your pain
We'll ignite the flames
We'll no longer be servile
Not anymore

Forevermore, together for what we all are heading for
No compromise, no alibis

Forevermore, together for what we all are heading for
No compromise, no alibis

When and if that day will come
when all is gone and we are not around
Just close your eyes and listen hard...
And we'll be back again

Forevermore, together for what we all are heading for
No compromise, no alibis
Forevermore
