

# Tin Star Man

Thunderstone

Land of the free, home of the brave  
A history of heroes in my name  
One truth under God  
I feel I am stranded  
In a world covered in dark

A shield against evil, I light the spark  
I can feel it in my blood  
I carry on my sacred ride  
Across the seas and the great divide

I will save you, even if you don't want me to  
My electric eye will always find you  
I'm the one, me, myself and I  
Feel the thunder when I light up the sky

No one can stop me now  
It's already begun  
I'm the Tin Star Man

It's a thin line between good and bad  
But knowing I'm right keeps me on the track  
Righteous and clean

I have the power, I have the force  
To bring down my foes and to lead my cause  
The light shines on me
