

## Tool of the Devil

Thunderstone

I'm a man without a heart, without a soul  
I am here for you, if you'll play my role  
Come closer if you dare, I will show you the way  
I'm pleasure and pain, I'm the night of your day  
Walk through the fire with me  
Over the seas of our times, higher where all is sublime

I'll be here by your side forever  
I will shadow your steps again and again  
We'll be chained to this sin together  
Through the joy and the pain

You try to stay on path  
try to keep direction  
But the voices in your head, whispering deception  
You're standing in the middle, don't know what to do  
I'll give you the answers, to get your through  
Walk through the fire with me  
Over the seas of our time, higher where all is sublime

I'll be here by your side forever  
I will shadow your steps again and again  
We'll be chained to this sin together  
Through the joy and the pain  
'Cos I am the Tool of the devil.
