

Finding God

Thy Disease

Throwing away religion
But living eternally
Don't need the cross
It's far weak hypocrits

How could you find the truth
Among the mass?
I'm discovering God
Deep inside the soul

Closing absolute without your greedy hand
Saving myself by being just who I am
Painful life has hurt to often
But don't leave it now
Cause the way has just begun
Just know how to live
And many years will pass
Then you will know how is to be
A man with real faith
Then I'll welcome death as a gift

Throwing away prayer
Banishing expitation
Finding salvation in every man
