

## Spawn

## Thy Disease

Couldn't resist stalking you  
The very look I give  
Is nightmare haunting you

Waiting and fertile  
Your fate is to Carry my mark  
It will leave scars

Inside of you  
Blasting flame

It will be done  
Scream, beg, climax,  
Slaughters orgy I fuck you dying  
Give the birth to infected spawn

Cursed womb  
Infected by my hatred and love  
Parasite, I wish it was me

Waiting and fertile  
Your fate is to Carry my mark  
It will leave scars
