Maiden Of Steel

Thy Majestie

In the dark of my cage I can remember my freedom The vision of a destiny; I \square m near to my death Eternal faith has guided me through the flames of eternity

Now only a miracle could make me free again

Please lord save me! My freedom is near So cold and so frightened, it is my jail Now I remember my past since my birth So cruel and so ruthless the destiny I suffer

IDve been called a Saint, IDd to find the way Voices of my fate running through my head to show me He chose me to save France to made them surrender In the name of my King IDve been a maiden warrior

Maiden of Steel for the faith to the King She \square s bearing the pain of thousand flames

Maiden of France, you will remain in the time A symbol of courage and faith.
