

# Firework

Thyrane

The day of eclipse  
Brought by baptism of fire  
Rebirth of future  
Falls from the skies

Fire!

Reorganizing life  
With withering conscience  
Throbbing along the heartbeat  
Of those feeling abandoned

Sweating blood (we are)  
Striking fire  
Exceeding limits  
Rising higher

Fire!

Breathing fire  
Scorched earth's decadence  
Past became meaningless  
Fenix rises, spreads it's wings  
Fire!
