

As Long As You Are Mine

Tiamat

You dance like liquid fire
Like crystal methedrine
You make the stars come closer
The most beautiful girl I've seen
You're everything I want
Only you can set me free
You're an angel in the snow
You're a shot in the arm for me
I will let you l.e.d. 's shine
as long as you are mine
You move and whisper softly
You make me safe and sound
You're a tranquilizer
You make the world go round
You are here beside me
You make me feel fine
I'll go through any day
As long as you are mine
I will let you l.e.d. 's shine
As long as you are mine
