

# Love In Chains

Tiamat

I shout and call for rejoicing  
I hear the sound of angel wings  
Escape us as we close the ring  
And into the fire we will fall  
Our desire, our flame, our call  
So be it, once for all

And you are the dream and I am the lie  
I am the Devil and you are my disguise  
I'm all the pain you always tried to keep inside

Love in chains  
We break free  
There is a time  
For you and me  
Not today  
Not tomorrow  
But one day our sorrow  
Shall go away

All our being is spellbound  
A black magic hellhound  
Let us have another round for our love  
Many hours we shall wait  
But it will never be too late  
In life or death we'll intergrate one day

Trough rain and stormy weather  
Shall always be together  
Together here forever  
Forever...
