## **Whatever That Hurts**

Decoction of Jimsonweed Slimy trailing plants distil Claustrophobia and blood mixed seed Cursed downstairs against my will

Cobweb sticks to molten years Cockroaches served with cream I wipe the silver bullet tears And with every tear a dream

With every tear a dream..

Honey tea, psilocybe larvae Honeymoon, silver spoon Psilocybe tea

Energy trickles with the tide Masterminds and the suicide squad Drink acid water by my side Stake the saviour of thier daily fraud

Overfilled toothpaste tubes Sleepless and timeless faces Drippety drop on sugarcubes The one eyed's eye twinkles and gazes

Twinkles and gazes...

Honey tea, psilocybe larvae Honeymoon, silver spoon Psilocybe tea Tiamat
