

A Little Love

Tiffany Alvord

Ooooooh, oooooh
Du du du du du du
Nooo no no no

I cry to sleep like a baby
I just need a lullaby
I just need a story read to me
To make everything alright

'Cause I've been having some nightmares lately
Tossing and turning, it's driving me crazy
Sick to my stomach, it's eating me up
But all we need is a little love-ove
All we need is a little love-ove
All we need is a little love

Ooooooh
Nooo no no no

I cry to sleep like a baby
I just need to be tucked in
If you'd like to stay with me
A little tender love will fix in

'Cause I've been having some nightmares lately
Tossing and turning, it's driving me crazy
Sick to my stomach, it's eating me up
But all we need is a little love-ove
All we need is a little love-ove
All we need is a little love

Oooh, like a baby I cry
I cry with a little love it'll be
All, all, right, alright

'Cause I've been having some nightmares lately
Tossing and turning, it's driving me crazy
Sick to my stomach, it's eating me up
But all we need is a little love-ove
All we need is a little love-ove
All we need is a little love-ove
All we need is a little love
