

# Aftereffect

Tiffany Alvord

Oooh ooh oh

It's our little secret  
The way we sneak out late  
The way you kiss me  
It's our little secret  
The way you hold me tight  
The way you miss me

I try, I try to think  
But my mind's a mess with me whenever I  
I try, I try to know  
'Cause you want to step right out of my league  
I try, I try to think  
We can do what we want like the Kennedys  
Got the camera, fade to black  
Let's dance behind the scenes

Baby you turn me on and when you're gone  
I forget how to breathe  
Yeah, you turn me on and when you're gone  
I can't feel my heart beat

It's the aftereffects that are making me  
Making me a mess  
Aftereffects, oh  
wooo oh wooo oh, oh oh

I know when you walked in  
I could taste it in the air  
That you found me  
I know there's a reason  
'Cause my heartbeat's getting faster  
When you're around me

I try, I try to think  
But my thoughts are walking out the door in front of me  
I try, I try to see  
But I'm second guessing and I know that you agree  
I try, I try to think  
We could do what we want like the Kennedys  
Got the camera, fade to black  
Let's dance behind the scenes

Baby you turn me on and when you're gone  
I forget how to breathe  
Yeah, you turn me on and when you're gone  
I can't feel my heart beat

It's the aftereffects that are making me  
Making me a mess  
Aftereffects, oh  
wooo oh wooo oh, oh oh

A F T E R, don't know how we got this far  
E F F E C T, this is what you do to me  
A F T E R, don't know how we got this far

E F F E C T, this is what you do

And you turn me on and when you're gone  
I forget how to breathe  
Yeah, you turn me on and when you're gone  
I can't feel my heart beat

It's the aftereffects that are making me  
Making me a mess  
Aftereffects, oh  
wooo oh wooo oh, oh oh

A F T E R, don't know how we got this far  
E F F E C T, this is what you do to me  
A F T E R, don't know how we got this far  
E F F E C T, this is what you do
