

# I Knew You Were The One

Tiffany Alvord

I never thought that  
a guy like you would give a girl like me a shot  
I think maybe I like you just a little  
or maybe it's a lot

'Cause when I close my eyes

da da da da  
I knew I knew  
You were the one

da da da da  
I knew I knew  
You were the one

When your eyes met mine  
the butterflies in my bellies came alive  
One step closer  
a one in a million feeling that you can't fight

'Cause when I close my eyes

da da da da  
I knew I knew  
You were the one

da da da da  
I knew I knew  
You were the one

Slowly swaying as you take me  
and you pull me in a little closer  
Slowly swaying when our eyes meet  
we feel the magic in the air take over

Hush, hush there's no need to talk  
We say it all when our lips lock

da da da da  
I knew I knew  
You were the one

da da da da  
I knew I knew  
You were the one

da da da da  
I knew I knew  
You were the one
