

Never Been Better

Tiffany Alvord

Once upon a time
A long ago
I wore a pretty dress
And you put a flower in my hair
Said I shine like gold
From what you've never known
Said I am more precious
Than anything you've ever been told
So here's the story
Here it goes
A boy falls for a girl
Yeah that story's just
the same and same on
She wants to fall so in love
But everyone around her
tells her no
But she don't care because

Cause we are one
when we're together
Cause we belong
Forever and ever
Cause when you're here
I've never been better
An when I'm in your arms
That's where I wanna be
So there's no stopping me
oh oh oh oh

She has to keep her distance
But she don't wanna listen, no
He tells her that patience
is the key
But this patience is killing me
So here's the story
Here it goes
I will be your princess
You'll never have to be alone
You'll be my prince charming
Cause when I'm in your arms
I know I'm home

Cause we are one
when we're together
Cause we belong
Forever and ever
Cause when you're here
I've never been better
An when I'm in your arms
That's where I wanna be
So there's no stopping me
oh oh oh oh

You can't stop true love
So there's no stopping us
You can't stop true love
So there's no stopping us

Cause we are one
when we're together
Cause we belong
Forever and ever
Cause when you're here
I've never been better
An when I'm in your arms
That's where I wanna be
So there's no stopping me
oh oh oh oh
