

# Unforgettable

Tiffany Alvord

You make me feel like a beautiful sunrise  
I like how I could get lost in your eyes  
Your sweet embrace, I know how much you love me  
And when I'm hurt, and when I'm down, you wipe my tears away  
And you hold me in your arms, tell me it's okay

And you are so unforgettable and you make me feel like an angel  
Kissed by the sun  
Shinin' bright by the stars  
I won't forget all the days  
That you take my breath away, ooooh  
'Cause you are so unforgettable

You are the melody that plays through my veins  
Over and over, again and again  
Your sweet affection, I know it won't change  
A song would last for ever  
Further than the sky above  
For ever on, cause this is love

And you are so unforgettable and you make me feel like an angel  
Kissed by the sun  
Shinin' bright by the stars  
I won't forget all the days  
That you take my breath away, ooooh  
'Cause you are so unforgettable

And hours and hours go by  
We walk on and on  
But we never get tired  
From all the love  
And all the fight  
From every day  
To every night  
For all the time that is to come  
Know that you are my only one

And you are so unforgettable  
And you make me feel like an angel  
Kissed by the sun  
Shinin' bright like the stars  
I won't forget all the days  
That you take my breath away, ooeehh  
'Cause you are so unforgettable

Unforgettable  
Unforgettable  
Oooohhhh  
You are so unforgettable
