

Almost In Love

Tiffany Darwish

You feel like a real bad habit
Nobody's blue eyes ever cut like that
The distance in between us is hard to hold
My heart can't take this beating all alone
I want you
Need you
Gotta have you

I'm almost in love
I'm almost in love

Looking in your eyes I can see tomorrow
For somebody like me that's so far away
I need to feel you breathing when I breathe
That promise you've been keeping is someone's dream I want you
Need you
Gotta have you

I'm almost in love
I'm almost in love

I'll admit that you're addicting
But love's not far behind
Don't you ever even wonder
What that promise takes away tonight?
