

# Be With U Tonight

Tiffany Darwish

I wanna be with U tonight  
and every other night  
from now until forever

I was just standing there only thinking  
you were lookin' in my direction  
pulling me closer with your intention  
no where to turn from this love emotion

And I can't escape you  
And you can't escape me  
And now you belong in my arms

I wanna be with U tonight  
and every other night  
from now until forever  
I wanna be with U tonight  
I don't need a reason why  
we were meant to be together

I was just looking for someone to talk to  
You were looking for my surrender  
I didn't know that my heart was so empty  
lyin' to myself I was just pretending

And I can't escape you  
And you can't escape me  
And now you belong in my arms

I was just standing there only thinking  
you were lookin' in my direction  
pulling me closer with your intention  
no where to turn from this love emotion

And I can't escape you  
And you can't escape me  
And now you belong in my arms
