

I Want You

Tiffany Darwish

I can't think straight
I hope I'm not too late
I've been crushing on you
Since I first met you
You're the one from tons
I'm not saying this for fun

I'm Sure
I Know
That you're the one for me
I hope you can see
I want you
I want you

I'm standing here
I think it's very clear
That we were meant to be

I know it's not just me

I think it's clear
That I want you
How many times do I have to say
I want you

I want you
I want you
I want you
I want you

You're funny, smart, and cute
I want you
It's you I want
You
