

# In The Name Of Love

Tiffany Darwish

Heaven is a state of mind  
Hell is nothing more than pain  
Only you can make me feel that they're both the same  
Lying with you every night  
Lying to you every day  
How'd I let myself get trapped this way?

So I do it in the name of love  
Only going through the motions  
Every time you reach for me  
I just do it in the name of love

Lately, I could be a ghost  
Drifting up and down these halls  
I used to know what kept me here  
Now I don't recall  
I wish I had the strength to leave  
I wish I had the heart to stay  
I wish I could disappear today

Still I do it in the name of love  
Only going through the motions  
Every time you reach for me  
I just do it in the name of love

Used to think that I could make a difference  
I was so naive  
Once your loving used to drive me crazy  
Now I just make believe

Heaven is a state of mind  
Hell is nothing more than pain  
Indecision keeps me here  
Try and pass the blame  
This is how our life is lived  
This is how our life was lost  
All that's left is just to pay the cost

So I do it in the name of love  
This is how our life is lost  
Every time you reach for me  
I just pay the cost

Oh, lately I could be a ghost  
Drifting up and down these halls  
I used to know what kept me here  
Now i, I don't recall

So I do it in the name of love  
Only going through the motions
