

# Sacrifice

Tiffany Darwish

Tell me something you keep secret  
A white lie to wet my lips  
So convincing, I can feel it  
Underneath my finger  
tips...

Leave your conscience at the table  
Hesitation at the door  
Lose your innocence if you're able  
All night here on the  
floor...

Sacrifice  
Sacrifice me  
I'll give you everything  
Close your eyes  
and you will find me  
I'm your sacrifice

Stomach full of butterflies  
A deep breath and we're on our way  
My heart pounds as I surrender  
My will I give  
away...

I can handle your affection  
Even if it lasts all night  
This sensation, sure perfection  
Show me more, I wanna get it  
right...

Sacrifice  
Sacrifice me...  
I'll give you everything  
Close your eyes  
You will find me  
I'm your sacrifice

Tell me something you keep secret  
A white lie to wet my lips  
So convincing I can feel it  
Underneath my finger  
Tips.

Leave your conscience at the table  
Hesitation at the door  
Lose your innocence if you're able  
all night here on the  
floor...

Sacrifice  
Sacrifice me  
I'll give you everything  
Close your eyes  
You Will find me  
I'm your sacrifice...
