

# Tenderly

Tiffany Darwish

Across the room you gave a glance  
Your soft, sweet eyes put me in a trance  
And since that day you've cherished me  
So to my heart you'll always hold the key

Tenderly, is the way to handle me  
Oh so tenderly, how your touch can set me free  
You baby, you're the only one

It's the little things you've given me  
The time we spend so preciously  
The special way you act when I'm around  
Your gentle kiss brings me up when I'm down

Tenderly, is the way to handle me  
Oh so tenderly, how your touch can set me free  
You baby, you're the only one

When we're all alone it feels so right  
making love to you all through the night  
The softness in your touch it shows me how you care  
I want you so much more with each day that we share

Tenderly, is the way to handle me  
Oh so tenderly, how your touch can set me free  
You baby, you're the only one

Tenderly, is the way to handle me  
Oh so tenderly, only you can set me free  
Baby, tenderly, is the way to handle me  
You, baby, you're the only one
