

# Walk Away While You Can

Tiffany Darwish

I thought at last that I had found someone  
Someone who wouldn't let me down  
Someone who wouldn't cheat on me  
When I'm not around  
Everybody says you better watch out  
He's only gonna use you  
Don't give your heart away to him  
Cause his love ain't true  
They keep sayin'  
Better walk away while you can  
'Cause your heart's in control  
and you don't understand  
Still a young girl, he's almost a man  
Better walk away while you can

It feels so right when we're together boy  
But I don't want to be used  
I'd like to give myself to you  
But I'm so confused  
You tell me everything I've heard about you  
Is just a lot of silly lies (silly lies)  
You're saying your in love with me  
But something just ain't right  
They keep saying  
Better walk away while you can  
'Cause your heart's in control  
and you don't understand  
Still a young girl, he's almost a man  
You better walk away while you can

I don't want to go through the sorrow  
If your love is just come and go  
Don't you let me wake up tomorrow  
And be the last one to know  
know...

They keep saying  
Better walk away while you can  
'Cause your heart's in control  
and you don't understand  
Still a young girl, he's almost a man  
You better walk away while you can  
Walk away  
I'm so confused  
I better walk away while I can  
'Cause my heart's in control  
and I don't understand  
I'm a young girl, you're almost a man  
Better walk away, walk away  
I better walk away  
(They keep sayin' better)  
walk away while you can  
'Cause your heart's in control  
and you don't understand  
Still a young girl, he's almost a man  
better walk away while you can  
You better walk away while you can

better walk away while you can (you can)
