

Winter's Over

Tiffany Darwish

The winter is over
and sun is not far
The treetops are glowing
And there's leaves on the ground

I remember the moment
Of you holding my hand
As the sunsets you're sleeping
right here where I stand

The way I feel I cannot say
I never wanted things to change
I will always love you
And I Will always feel this way
And how I long to see your face

The memories of your lifetime
Live on in my heart
The shadows surround you
As you lay in the dark

The way I feel I cannot say
I never expected things to change
I will always love you
And I would always feel this way
And how I long to see your face

You're sleeping
I'm calling
But you're not around
The treetops
Are glowing
And there's leaves on the ground

The winter is over
and sun is not far
The treetops are glowing
And there's leaves on the ground...
