

Cry

Tiffany Evans

Gave you everything but it wasn't enough
Can't believe how you neglected my love
{Wish I would've seen}
Wish I would've seen you for who you was
{But I was just a fool}
Baby I was just a fool in love

You say you found somebody new now you don't want me
Hope she do the same thing to you
I hope that she makes you cry
Cry
Never thought that we would be where we are
Always thought that we would reach the stars
I guess you just weren't capable of being truly faithful
But it's all good cause I know who you are baby you

You say you found somebody new now you don't want me
Hope she do the same thing to you
I hope that she makes you cry
Cry
Think of everything you put me through now imagine you in the same position with it being done to you
Never thought that we would end this way
And I'm sorry babe but karma coming back in the worst way
I know the bigger thing to do would be just too forgive ya
But I'm sorry baby cause I ain't ready too
Now I hope you realize telling me all those lies is going to be the thing that makes you cry
Cry [x15]
